

Start with safety. Prepare with ePACT.

Player safety is always a top priority. To create the safest environment for your athletes, you need the right tools.

ePACT is an emergency network that allows hockey associations to securely collect and manage player medical release forms online. Parents use ePACT to submit their emergency information rather than using paper forms. With ePACT, you save time for families, coaches, and team managers, while improving data quality and reducing risks.

For Your Association

ePACT allows your coaches and managers to spend more time doing what matters: making sure your players have a successful, safe season.

- ▶ Quickly access records in the event of an injury or emergency. The ePACT mobile app gives you instant, secure access even without web or cell service!
- ▶ Reduce administrative time collecting player medical forms and waivers every season.
- ▶ Track which forms have been completed and remind those who have not submitted their data with just one click.
- ▶ Send email and text messages to parents and emergency contacts for unexpected situations, schedule changes, or urgent updates.

“ We have used the services of ePACT for the past two seasons. From set up and implementation, to ease of use, we have been very satisfied with ePACT and their support staff. We highly recommend ePACT to other youth sports organizations, as the service has definitely enhanced our player safety program.

CAROLYN HART, PRESIDENT, RICHMOND MINOR HOCKEY ASSOCIATION

For Your Parents

Over 90% of parents prefer using ePACT over paper forms for many reasons:

- ▶ ePACT is easier and faster to submit complete, legible player information.
- ▶ Parents can update medical or contact data as it changes, so you have their new cell phone, allergy or emergency contact details as soon as they enter it.
- ▶ They have peace of mind knowing their information is stored safely and securely rather than in binders that can easily be lost or stolen.
- ▶ ePACT is their single record. They enter their data once, then can share it with you season after season, or across events, leagues and other sports.

Over 20% of forms fall out of date in 3 months

30% of forms are returned incomplete

35% of forms are considered illegible

“ ePACT is the perfect way to submit emergency information for my family. I feel better knowing my information is stored electronically, and if anything happens I am not hoping my information will be found in a binder somewhere.

FAMILY USER

Improve how you manage medical release forms, reduce risks for your hockey association, and make your coaches', managers' and parents' lives easier. Contact ePACT today!
