

Eliminate the paper. Embrace the peace of mind.

Skip the paperwork and replace illegible, incomplete and impractical medical forms with ePACT's easy one-and-done process.

The wellbeing and happiness of the families you serve is your top priority. That's why having the right tools is essential. Yet for decades, recreation departments have had to rely on paper forms to collect families' medical and emergency contact data.

The Problem with Paper

- ▶ Paper forms are risky. Whether struggling to read illegible handwriting, or finding incomplete or out of date data, all of these can impact the safety and support you provide to families.
- ▶ Paper is difficult to manage. Families constantly have to complete these forms for every program they attend, while staff struggle with carrying around binders or searching through stacks of paper in a crisis.
- ▶ Managing the privacy and security of these forms is almost impossible, with too many chances for forms to be lost or damaged.

It's time to make life easier for you, your staff and your families. ePACT is the solution!

ePACT is the exclusive emergency network provider for the National Recreation & Park Association.

What is ePACT?

- ▶ ePACT is a cloud-based system that lets you easily and securely collect critical emergency data from families attending any of your programs.
- ▶ Families input their information **once** and simply use ePACT as their single emergency record to connect and share across multiple programs.
- ▶ ePACT can be used as a stand-alone system or can 'talk' to other software systems with simple API data exchange, allowing quick and easy set up and use throughout the year.
- ▶ By replacing your paper medical forms, waivers and consents with ePACT, you can reduce administration time, costs and headaches, while making families' lives easier and safer in the event of an emergency!

91% of families prefer ePACT over paper forms

93% of families find ePACT easy to use

93% of families agree ePACT makes them feel safer

Why use ePACT?

- ▶ Unlike paper forms and other recreation software, ePACT meets legislative privacy and security needs, including compliance with HIPAA and the Privacy Act.
- ▶ Authorized administrators can securely access ePACT anytime, anywhere on computer, smartphone or tablet. With our Mobile App, data is accessible even without internet or cell service!
- ▶ Run reports to identify allergies, medications, dietary requirements, or other medical concerns to help prepare in advance for programs, respond in a crisis or archive records for data retention requirements.
- ▶ ePACT not only demonstrates your commitment to participant safety, but also helps your team spend less time processing paper forms and more time doing what matters: supporting your families.

“ ePACT has made life easier for our parents, and provided us with a multi-functional tool which has allowed us to be more effective recreation service providers. ”
